

```
10
11
12
13 public final @NotNull @Positive Integer bar(final @NotNull String a, final String b) {
14     String s = a;
15
16     if (foo(a)) {
17         s = b;
18     }
19
20     return s.length();
21 }
22
23
```

Potential null pointer access: the variable s may be null at this location.
