```
10
11
12
13    public final @NotNull @Positive Integer bar(final @NotNull String a, final String b) {
14        String s = a;
15
16        if (foo(a)) {
17            s = b;
18        }
19
20        return s.length();
21    }
22
23
```

@ Add @NotNull to parameter 'b'.
@ Add @NotNull to local variable 's'.
J! Surround with null pointer check.
@ Add @SuppressWarnings 'null' to 'bar()'
